

ProEst is a powerful, easy-to-use estimating software solution that helps companies like yours quickly create accurate, competitive bids. With ProEst, you can create estimates, perform digital takeoffs, store project drawings and manage the bid day process using a single solution with one SQL database. A comprehensive materials database allows you to refine each bid to take full advantage of project opportunities, and accurately calculate the cost of any size project – quickly and easily.

## Key ProEst Benefits:

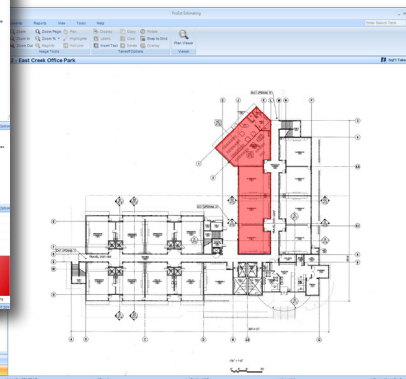

- An intuitive user interface and Microsoft Office look-and-feel lowers the learning curve and makes it quick and easy to create detailed estimates
- A single solution with one database for storing all of your valuable estimate data means you'll never have to search for a missing estimate or drawing file again
- A standardized estimating process increases efficiency, eliminates errors and presents a consistent and professional company brand
- Seamless integration with standard business tools, construction accounting programs and online plan rooms extends the power of ProEst well beyond estimating

Intuitive User Interface

One SQL Database

Integrated Digital Takeoffs

## What ProEst Users are Saying:

"Using ProEst with digital plans and a mouse has revolutionized our estimating process, while saving us about 800 staff hours a year." *Jeff Gay, Vice President of Estimating, Good & Roberts, Inc.*

"When it comes to having people on staff that care about the product they produce, I've never seen a vendor as committed as ProEst." *Larry Swikard, President, Terra Firma Landscape Co.*

"ProEst saves us time and estimating hours that result in an 18 percent reduction in our administrative overhead and divisional costs." *Jeff Daniel, Sales/Estimating Manager, GBC Construction*

## Compare Your ProEst Options
